WINTER BREAK HOMEWORK

Class-12th

HOLIDAY HOME WORK FOR WINTER BREAK 2020

CLASS-12A SUB-maths

1. Show that the modulus function $f: \mathbb{R} \rightarrow \mathbb{R}$, given by $f(x) = |x|$, is neither one one nor onto, where $|x| = x$, if x is non negative and $|x| = -x$, if x is negative.

2. Find principal value of $\sin^{-1}(1)$.

3. Find transpose of the matrix $\begin{bmatrix} 5 & & & & \\ & 1/2 & & & \\ & & -1 & & \\ & & & & \end{bmatrix}$

4. Prove that the function $f(x) = 6x - 3$ is continuous at $x = 0$.

5. SOLVE SYSTEM OF LINEAR EQUATION USING MATRIX METHOD;

$$x - y + 2z = 7$$

$$3x + 4y - 5z = -5$$

$$2x - y + 3z = 12$$

6. Find the equation of the tangent and normals to the curve $y = x^2 + 2x + 6$ which are parallel to the line $x + 18y + 4 = 0$

7. Show that the semi vertical angle of right circular cone of given surface area and maximum volume is $\sin^{-1}(1/3)$.

8. Integrate

$$\int x^3 \sin(\tan^{-1} x^4) dx / (1 + x^8)$$

$$9. \int 2dx / (1-x)(1+x^2)$$

$$10. \int x \sin^{-1} x dx$$

$$11. \int \sqrt{1+3x-x^2} dx$$

$$12. \int dx / \cos(x+a)\cos(x+b)$$

13. Find the area of the region bounded by the parabola $y = x^2$ and $y = |x|$

14. Form the differential equation of the family of hyperbola having foci on X axis and the center at origin.

15. For the differential equation $(x+y)dy + (x-y)dx = 0$, $y = 1$ when $x = 1$

KV ARA 2020-21

WINTER BREAK ENGLISH HOMEWORK CLASS 12

QUE 1 : You are Principal of National Public School, Jaipur. You require a TGT (Maths) for your school. Draft a suitable advertisement in not more than 50 words for the 'Situations Vacant' column of 'The National Times' stating essential and desirable qualifications, experience etc of the candidates. (3 MARKS)

QUE 2: Arts Club of your school is going to organize a drawing and painting competition. Write a notice in not more than 50 words, to be displayed on the school notice board, inviting students to participate in it. Give all the necessary details. You are Rishabh/Ridhima, Secretary, Arts Club, Sunrise Public School, Gurugram, Haryana. (3 MARKS)

QUE 3: You are Dhruv/Deepa. Your father, Shri Dheeraj Garg of Gurugram wants you to draft an invitation to be sent to friends and relatives on the occasion of your elder sister's marriage. Prepare the invitation giving necessary details in not more than 50 words. (3 MARKS)

QUE 4: You are Kumar/Ankita, Secretary, West End Cooperative Group Housing Society, Vasundhara. Write a notice in not more than 50 words requesting the members to attend a meeting of the society to discuss the problem of irregular supply of drinking water to the residents. (3 MARKS)

QUE 5: You are Mrs. Krishnamurthi. Your son is getting married. You are throwing a party to celebrate the occasion. On behalf of your husband and yourself draft a formal invitation in not more than 50 words inviting friends and relatives to attend the function. (3 MARKS)

QUE 6 : You are Nainai/Nachaobi Kom, Headboy/Headgirl of Loktak High School, Manipur. Your school wishes to honour an old student of your school, the famous boxer Mary Kom for all her numerous achievements by inviting her to the school Annual Day as the Chief Guest. Write a formal invite in not more than 50 words to be sent to Mary Kom requesting her presence on the occasion.(3 MARKS)

QUE 7 : You are Shahneela/Sameer Malik living at No. 4, Zakir Bagh, Meerut. You and your friends decide to host a dinner to honour the teachers who have taught you in Class XII. Draft a formal invitation in not more than 50 words to all your teachers to a grand dinner at your residence. (3 MARKS)

QUE 8 : You are Sutapa/Damodar Dey of 22, Kalinga Nagari, Bhubaneswar. You want to sell your car as you plan to buy a new one. Draft a suitable advertisement in not more than 50 words to be published in a local newspaper in the classified columns. (3 MARKS)

QUE 9 : The Gandhi Foundation is recruiting graduates for an intensive leadership-training programme during the summer, in villages across India. You are Anjana/Benji from 21, Ratnapur Village, Bilaspur. You are very excited to see the advertisement and decide to apply for the same. Draft a letter in 120 – 150 words applying for the advertised programme. Include a biodata showing how suitable you are for the training. (5 MARKS)

QUE 10 : Blue Waters Public School, Port Blair, urgently requires a Physical Education Teacher to teach the senior classes. The instructor should also be able to teach swimming. The school places an advertisement in 'The National Express'. You are Bharat/Madhu Sharma, from 21, First Cross Street, Chennai. Draft a letter in 120 – 150 words along with your biodata for the advertised post. (5 MARKS)

KENDRIYA VIDYALAYA, ARA

WINTER BREAK HOMEWORK

CLASS-12TH

COMPUTER SCIENCE

1. Write a python program to search an element in a list and display the frequency of element present in list and their location using Linear search by using user defined function. [List and search element should be entered by user]
2. Write a python program to search an element in a list and display the frequency of element present in list and their location using binary search by using user defined function. [List and search element should be entered by user]
3. Write a python program to pass list to a function and double the odd values and half even values of a list and display list element after changing.
4. Write a Python program input n numbers in tuple and pass it to function to count how many even and odd numbers are entered.
5. Write a Python program to function with key and value, and update value at that key in dictionary entered by user.
6. Write a Python program to pass a string to a function and count how many vowels present in the string.
7. Write a Python program to generator(Random Number) that generates random numbers between 1 and 6 (simulates a dice) using user defined function.
8. Write a python program to implement python mathematical functions.
9. Write a python program to implement python string functions.
10. Write a python program to read and display file content line by line with each word separated by #.
11. Write a python program to remove all the lines that contain the character 'a' in a file and write it to another file.
12. Write a python program to read characters from keyboard one by one, all lower case letters gets stored inside a file "LOWER", all uppercase letters gets stored inside a file "UPPER" ,and all other characters get stored inside "OTHERS"
13. Write a python program to create a binary file with name and roll number. Search for a given roll number and display name, if not found display appropriate message.
14. Write a python program to create a binary file with roll number, name and marks, input a roll number and update the marks.
15. Write a python program to create a CSV file with empid, name and mobile no. and search empid, update the record and display the records.

16. Write a Python program to create Lpush() and Lpop() function to do push and pop operation on a stack using a list e.g. take a student information and push and pop the details.

17. Create a student table and insert data. Implement the following SQL commands on the student table:

ALTER table to add new attributes / modify data type / drop attribute

UPDATE table to modify data

ORDER By to display data in ascending / descending order

DELETE to remove tuple(s)

GROUP BY and find the min, max, sum, count and average

18. Integrate SQL with Python by importing the MySQL module record of employee and display the record.

19. Integrate SQL with Python by importing the MySQL module to search an employee using empno and if present in table display the record, if not display appropriate method.

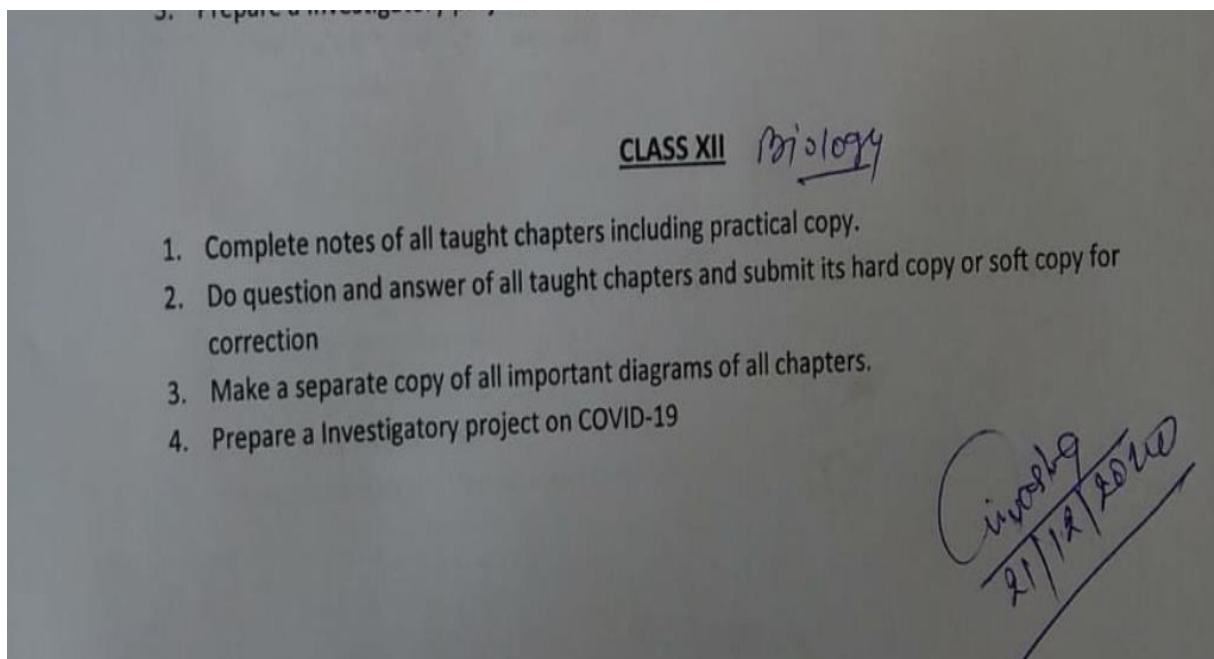

20. Integrate SQL with Python by importing the MySQL module to search a student using rollno, update the record.

21. Integrate SQL with Python by importing the MySQL module to search a student using rollno, delete the record.

22. Take a sample of ten phishing e-mails (or any text file) and find most commonly occurring word(s)

Subject- Biology

XII-HINDI

HOLIDAY HOMEWORK

प्रश्न 1: फिल्मों में बढ़ती हिंसा विषय पर 80-100 शब्दों में एक आलेख लिखिए।

प्रश्न 2: बाल श्रमिक विषय पर 80-100 शब्दों में एक फीचर लिखिए।

प्रश्न 3: निम्नलिखित प्रश्नों का उत्तर लिखिए

(क) पेज थ्री पत्रकारिता का क्या तात्पर्य है

(ख) फ़्लैश व ब्रेकिंग यूज किसे कहते हैं?

प्रश्न 4: कहानी का नाट्य रूपान्तर करते समय किन महत्वपूर्ण बातों का ध्यान रखना चाहिए?

प्रश्न 5 'काले मेघा पानी दे' पाठ की इन्दर सेना युवाओं को रचनात्मक कार्य करने की क्या प्रेरणा दे सकती है?

प्रश्न 6: पहलवान लुट्टन सिंह को राजा साहब की कृपा दृष्टि कब प्राप्त हुई? वह उन सुविधाओं से वंचित कैसे हो गया?

प्रश्न 7: आपके क्षेत्र में एक सड़क को चौड़ा करने के बहाने आवश्यकता से अधिक पेड़ काटे गए हैं इसकी विस्तृत जानकारी देते हुए वन और पर्यावरण विभाग को पत्र लिखिए।

प्रश्न 8: हाल ही में पढ़ी गई किसी पुस्तक की समीक्षा लिखिए

प्रश्न 9: विद्यालय स्वच्छता अभियान विषय पर एक फीचर तैयार कीजिए

प्रश्न 10: अपनी बस्ती के निकट लगने वाले साप्ताहिक बाजार को विषय बनाकर एक फीचर तैयार कीजिए।

HHW for Winter break.
~x~x~x~x~x~

for X11 (Physics)

P₁ → Write 2 times & understand the Question Paper of PB1 (Physics) that was held on 30.11.20, on the Assign meet/H.W copy.

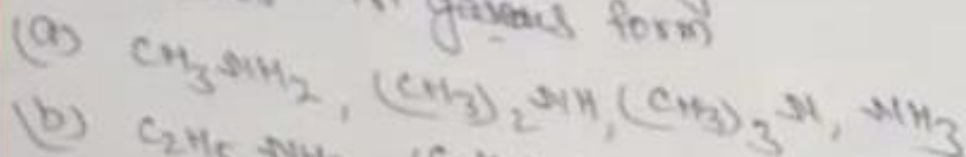

P₂ → Write 2 times & understand all important points of chapter 11, 12 & 13 which are all ready discussed with you during class on H/W copy.

CLASS XII CHEMISTRY
HOLIDAYS HOME WORK

(1) Arrange the following in increasing basic character of amines in aqueous form.

(2) Arrange the following in increasing basic character in gaseous form

(3) Account for the following

(i) Aniline does not undergo Friedel-Crafts reaction

(ii) pK_b value of Aniline is greater than methyl amine

(iii) Nitration of Aniline gives substantial amount of meta product although $-\text{NH}_2$ is ortho and para directing group.

(iv) Gabriel phthalimide gives primary amine.

(v) Describe cross Aldol condensation.

(5) Define the following

Cannizzaro reaction, Rosenmund reaction, Williamson synthesis

CLASS- 11TH

KV ARA 2020-21

WINTER BREAK ENGLISH HOMEWORK CLASS 11

QUE 1 : Water is precious and each one of us must stop its wastage to avoid its scarcity in the near future. Prepare a poster requesting people of your colony to adopt means to save water, prevent its wastage, etc. You are Rama/Rohan of Ahimsa Vihar, Saket, Ahmedabad. (50 words) (3 MARKS)

QUE 2: Arts Club of your school is going to organize a drawing and painting competition. Write a notice in not more than 50 words, to be displayed on the school notice board, inviting students to participate in it. Give all the necessary details. You are Rishabh/Ridhima, Secretary, Arts Club, Sunrise Public School, Gurugram, Haryana. (3 MARKS)

QUE 3: You are Vinayak/Revati from the Green School, Thoothukudi. You read an article about the proposed garbage segregation programme in the neighbourhood, which is set to begin from next week. You decide to make a poster telling your neighbourhood about the programme and the value of garbage segregation. Draft the poster to be put up in your neighbourhood. (50 words) (3 MARKS)

QUE 4: You are Kumar/Ankita, Secretary, West End Cooperative Group Housing Society, Vasundhara. Write a notice in not more than 50 words requesting the members to attend a meeting of the society to discuss the problem of irregular supply of drinking water to the residents. (3 MARKS)

QUE 5: You are Bhai Bajrang/Radha Joshi, Principal, Basant Public School, Nashik. Your school has just decided to plant trees along the boundary wall of your school, for which you need saplings. You also want to place a large number of potted plants in all the corridors to help make the school green and reduce pollution. Write a letter in 120 – 150 words to the proprietor of Masjid Nursery, Nashik, wholesale suppliers of all kinds of saplings and indoor/outdoor plants, placing an order for saplings of plants for the school. (5 MARKS)

QUE 6 :. You are Anand Kumar/Anant Kumari, Sports Incharge, Greenland Public School, Goregaon. You ordered some sports goods from Bhalla Sports, Andheri, Mumbai. When the consignment was opened you found that the contents did not tally with those you had ordered. Write a letter of complaint in 120 – 150 words (5 MARKS)

QUE 7 : You are Mrs./Mr. Gupta. Your son is a student of Class XII and wants to pursue a course in mass communication. Write a letter in 120 – 150 words to the Dean, Institute of Mass Communication, University of Delhi, seeking information about the course, admission procedure, eligibility criteria, fee structure, hostel facilities, placement opportunities, etc. (5 MARKS)

QUE 8 : You bought a refrigerator two months ago from Mohan Sales, Ashok Vihar, Bangalore. It has developed certain problems regarding its functioning. Cooling has stopped and it is making a lot of noise. Write a letter of complaint to the Manager asking him for immediate repair/replacement of the same. You are Sachin/Shashi, 61 Pratap Enclave, Bangalore. (100 – 125 words) (5 MARKS)

QUE 9 : The Gandhi Foundation is recruiting graduates for an intensive leadership-training programme during the summer, in villages across India. You are Anjana/Benji from 21, Ratnapur Village, Bilaspur. You are very excited to see the advertisement and decide to apply for the same. Draft a letter in 120 – 150 words applying for the advertised programme. Include a biodata showing how suitable you are for the training. (5 MARKS)

QUE 10 : Blue Waters Public School, Port Blair, urgently requires a Physical Education Teacher to teach the senior classes. The instructor should also be able to teach swimming. The school places an advertisement in 'The National Express'. You are Bharat/Madhu Sharma, from 21, First Cross Street, Chennai. Draft a letter in 120 – 150 words along with your biodata for the advertised post. (5 MARKS)

HOLIDAY HOME WORK FOR WINTER BREAK 2020

CLASS-11A SUB-MATHS

1. WRITE the following sets in roster form

i. $A = \{x : x \text{ is an integer and } -4 < x < 7\}$

ii. $B = \{x : x \text{ is a natural no. less than 8}\}$

2. write the following in set builder form

i. $\{5, 10, 1\}$ ii. $\{2, 4, 6, 8, 16, 32\}$

Q3. let $A = \{1, 2, 3, 4, 5, 6\}$ INSERT THE appropriate symbol \in, \notin in the blank space

1. $5 \in A$ II. $8 \in A$ III. $10 \in A$ IV. $2 \in A$

4. Which of the following sets are finite or infinite

i. the set of the days of a year

ii. $\{1, 2, 3, \dots\}$

iii. the set of prime numbers less than 101

5. write down the subsets of $\{1, 2, 3\}$

6. write the following as intervals

I. $\{x : x \in \mathbb{R}, -4 < x \leq 6\}$ II. $\{x : x \in \mathbb{R}, 0 \leq x < 7\}$

Q 7. given the sets $A = \{1, 3, 5\}$, $B = \{2, 4, 6\}$ and $C = \{0, 2, 4, 6, 8\}$, which of the following may be considered as universal SET for all the three sets A, B and C

i. $\{0, 1, 2, 3, 4, 5, 6\}$ ii. $\{0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10\}$

8. if $X = \{a, b, c, d\}$ and $Y = \{f, b, d, g\}$ find $X - Y$, $Y - X$ and $X \cap Y$

9. draw appropriate venn diagram for each of the following

I. $(A \cup B)'$ II. $A' \cap B'$

10. IN A GROUP OF 80 people, 30 like coffee, 50 like tea and each person likes at least one of the drinks. how many people like both coffee and tea?

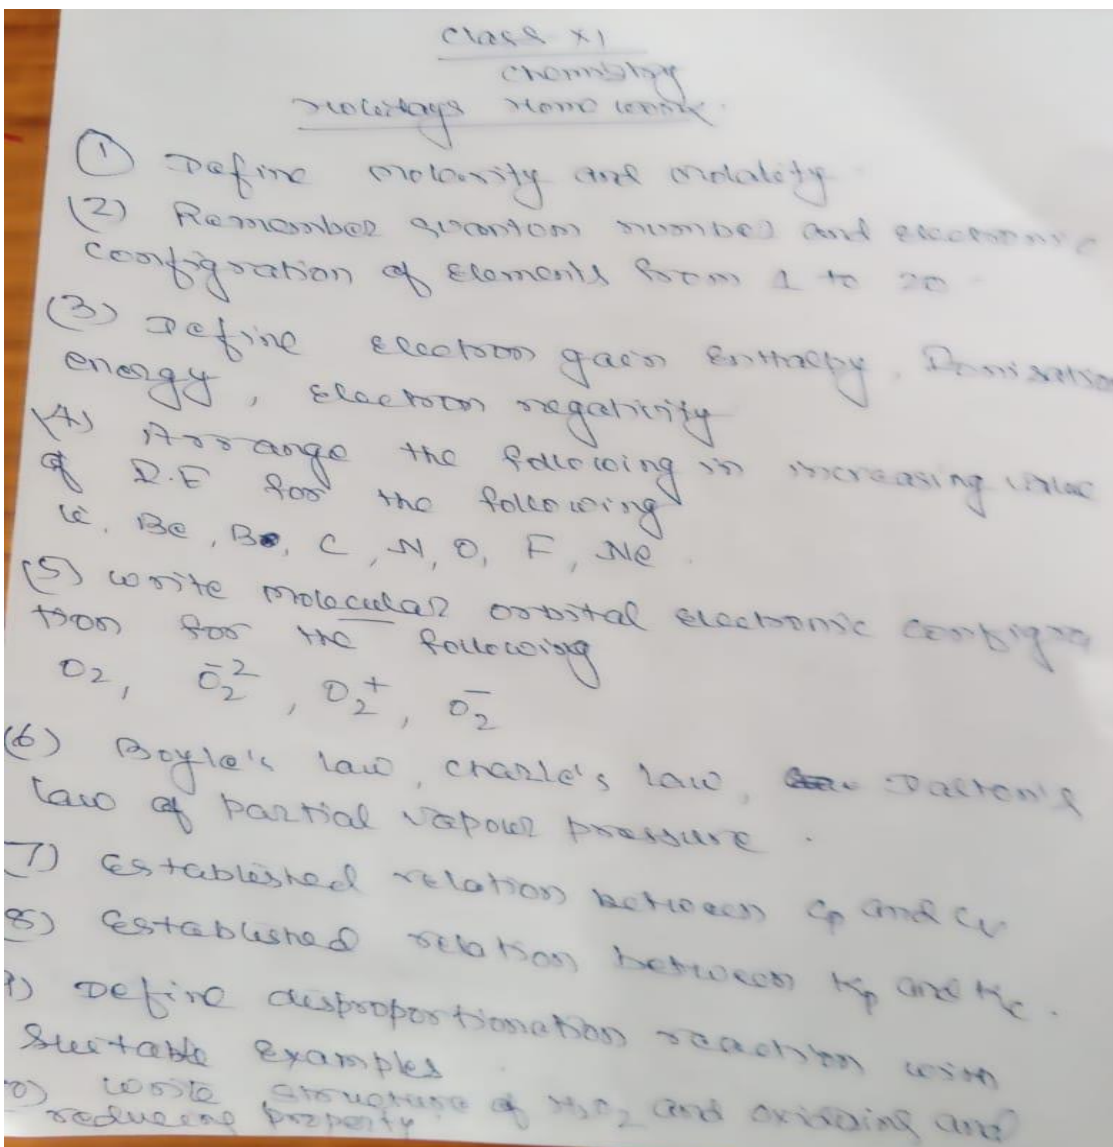

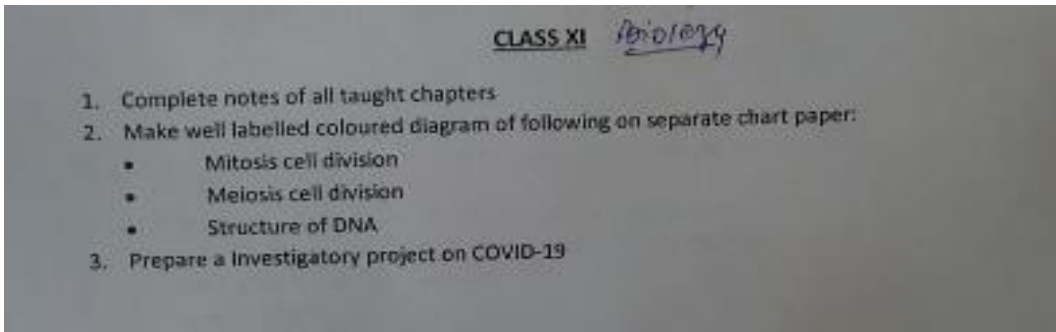

11. the cartesian product $A \times A$ has 9 elements among which are found $(-1, 0)$ and $(0, 1)$. find the set A and the remaining elements of $A \times A$.

12.

13. find domain and range of $f(x) = \sqrt{9 - x^2}$

14. find the value of trigonometric function $\operatorname{cosec}(-1410^\circ)$

15. Find the value of $\sin x/2$, $\cos x/2$ and $\tan x/2$ if $\tan x = -4/3$, x lie in quadrant II. |

XI-HINDI

HOLIDAY HOMEWORK

प्रश्न 1: प्रश्नों के उत्तर दीजिए।

(क) मियां नसरुद्दीन को नान बाइयों का मसीहा क्यों कहा गया?

(ख) इतिहास में स्पीति का वर्णन क्यों नहीं मिलता?

प्रश्न 2: निम्नलिखित प्रश्नों के उत्तर दीजिए।

(क) आम श्रोता किस संगीत को पसंद करता है?

(ख) राजस्थान में कुंई बनाने पर पंचायत को रोक क्यों है?

प्रश्न 3: लता मंगेशकर की गायन की कौन-कौन सी खूबियां आप को प्रभावित करती हैं?

प्रश्न 4: कुंई खोदते समय गहराई में ताज़ी हवा का प्रबंध किस प्रकार किया जाता है?

प्रश्न 5: सचिन तेंदुलकर की उपलब्धियों पर एक फीचर लिखिए।

प्रश्न 6: भोजन और स्वास्थ्य विषय पर एक फीचर तैयार कीजिए।

प्रश्न 7: केनरा बैंक ,कोयंबटूर शाखा के प्रबंधक के नाम पत्र लिखिए जिसमें अपना बचत खाता बंद करने का आवेदन हो।

प्रश्न 8: योग के प्रति बढ़ती रुचि पर एक फीचर लिखिए।

प्रश्न 9: दूषित आहार पर चिंता प्रकट करते हुए एक फीचर लिखिए।

प्रश्न 10: दैनिक हिंदुस्तान, कस्तूरबा गांधी मार्ग, नई दिल्ली के संपादक को पत्र लिखकर दिल्ली में बड़े हुए अपराधों के प्रति चिंता प्रकट कीजिए।

KENDRIYA VIDYALAYA, ARA

HOLIDAY HOMEWORK

CLASS-11TH A

COMPUTER SCIENCE

1. Introduction to Computer System Organization (Draw & explain functional diagram of computer and explain the I/P, O/P Devices, software, hardware, memory and operating system)
2. Introduction to python programming language (write about the python history installation and features of python & various python interpreter)
3. Write a python program to Input a welcome message and display it.
4. Write a python program to Input two numbers and display the larger / smaller number.
5. Write a python program to Input three numbers and display the largest / smallest number.
6. Write a python program to input two integers x and n, compute x^n
7. Write a python program to input the value of x and n and print the sum of the following series:
 - i) $1+x+x^2+x^3+x^4+\dots+x^n$
 - ii) $1-x+x^2-x^3+x^4+\dots+x^n$
 - iii) $x+x^2/2-x^3/3+x^4/4+\dots+x^n/n$
 - iv) $x+x^2/2!-x^3/3!+x^4/4!+\dots+x^n/n!$
8. Write a python program to determine whether a number is a perfect number, an Armstrong number or a palindrome.
9. Write a python program to Input a number and check if the number is a prime or composite number.
10. Write a Python Program to print Fibonacci series up to the entered n positive number.
11. Write a Python Program to Compute the greatest common divisor(GCD/HCF) and least common multiple (LCM) of two Integers.
12. Write a Python Program to Count and display the number of vowels, consonants, uppercase, lowercase characters in string.
13. Write a Python Program to Input a string and determine whether it is a palindrome or not; convert the case of characters in a string.
14. Write a Python Program to find the largest/smallest number in a list/tuple and displaying the position of that number
15. Write a Python Program to Input a list of numbers and swap elements at the even location with the elements at the odd location.

16. Write a Python Program to Input a list/tuple of elements, search for a given element in the list/tuple and frequency and position of search element.
17. Write a Python Program to Input a list of numbers and test if a number is equal to the sum of the cubes of its digits. Find the smallest and largest such number from the given list of numbers.
18. Write a Python Program to Create a dictionary with the roll number, name and marks of n students in a class and display the names of students who have marks above 75.
19. Write a Python Program to implement python maths function/method (pi, e, sqrt, ceil, floor, pow, fabs, sin, cos, tan) using math module.
20. Write a Python program to implement the random function random, randint, Randrange using random module.
21. Write a Python program to implement the statistics functions (mean, median, mode) using statistics module.

ANU, PGT COMPUTER SCIENCE

CLASS- 11TH B

Subject: I.P

Programming in Python

1. To find average and grade for given marks.
2. To find sale price of an item with given cost and discount (%).
3. To calculate perimeter/circumference and area of shapes such as triangle, rectangle, square and circle.
4. To calculate Simple and Compound interest.
5. To calculate profit-loss for given Cost and Sell Price.
6. To calculate EMI for Amount, Period and Interest.
7. To calculate tax - GST / Income Tax.
8. To find the largest and smallest numbers in a list.
9. To find the third largest/smallest number in a list.
10. To find the sum of squares of the first 100 natural numbers.
11. To print the first 'n' multiples of given number.

12. Create a dictionary to store names of states and their capitals.
13. Create a dictionary of students to store names and marks obtained in 5 subjects.
14. To print the highest and lowest values in the dictionary.

Data Management: SQL Commands

15. To create a database Student_11
16. To create student table student with the student id, class, section, gender, name, dob, and marks as attributes where the student id is the primary key.
17. To insert the details of at least 10 students in the above table.
18. To display the entire content of table.
19. To display Rno, Name and Marks of those students who are scoring marks more than 50. 20. To find the average of marks from the student table.
21. To find the number of students, who are from section 'A'.
22. To display the information all the students, whose name starts with 'AN' (Examples: ANAND, ANGAD,..)

Class- 10th

WINTER BREAK HOME WORK 2020-21

CLASS X *Science*

1. Complete notes of all taught chapters
2. Do question and answer of all taught chapters and submit its hard copy or soft copy for correction
3. Find electronic configuration of elements from 1 to 30
4. Make well labelled coloured diagram of following on separate chart paper:
 - Fleming's left and right hand rule
 - Periodic table

KENDRIYA VIDYALAYA,ARA

Winter Break Home Work, 2020-21

Subject: Mathematics

CLASS: XA & XB

Mark the correct alternatives in each of the following:-

1. If TP and TQ are two tangents to a circle with Centre O so that $\angle POQ = 110^\circ$, then $\angle PTQ$ is (a) 60 (b) 60 (c) 60 (d) 60
2. The length of tangent drawn from a point 8cm away from the Centre . of a circle 6cm is (a) $\sqrt{7}$ cm (b) $\sqrt{7}$ cm (c) 10cm (d) 5cm
3. $\sqrt{1+\sin\theta} - \sin\theta$ is equal to (a) $\sec\theta + \tan\theta$ (b) $\sec\theta - \tan\theta$ (c) $\sec^2\theta + \tan^2\theta$ (d) $\sec\theta - \tan\theta$
4. If $a\cos\theta + b\sin\theta = 4$ and $a\sin\theta - b\cos\theta = 3$, then $a^2 + b^2$ is (a) 7 (b) 12 (c) 25 (d) None of these
5. If $\triangle ABC$ is a right angled at C, then the value of $\cos(A + B)$ is (a) 0 (b) 1 (c) 1/2 (d)
6. A solid sphere of radius r is melted and cast into the shape of solid Cone of height r, the radius of the base of cone is (a) 2r (b) 3r (c) r (d) 4r
7. The curved surface area of right circular cone of height 15cm and Base diameter 16cm is (a) $60\pi\text{cm}^2$ (b) $68\pi\text{cm}^2$ (c) $120\pi\text{cm}^2$ (d) $136\pi\text{cm}^2$
8. which of the following cannot be the probability occurrence of an Event (a) 0.2 (b) 0.4 (c) 0.8 (d) 1.6
9. A card is drawn at random from a pack of 52 cards. The probability That the drawn card is not an ace is
10. What is the probability that a leap year has 52 Mondays? (a) 2/7 (b) 4/7 (c) 5/7 (d) 6/7
11. Prove that length of two tangents drawn from an external point To a circle are equal.
12. A circle is touching the side BC of $\triangle ABC$ at P and touching AB and AC produced at Q and R respectively. Prove that $AQ = 1/2$ (Perimeter of $\triangle ABC$)
13. A circle touches all the four sides of a quadrilateral ABCD. Prove That: $AB + CD = BC + DA$
14. A circle touches the sides of a quadrilateral ABCD at P, Q, R and S Respectively. Show that angles subtended at the Centre by pair Of opposite sides are supplementary.

15. Write first four terms of the A.P. when the first term 'a' and the common difference 'd' are given as follows: (i) $a = 10, d = 10$ (ii) $a = -2, d = 0$ (iii) $a = 4, d = -3$ 16. State and prove Basic proportionality theorem.

KV ARA 2020-21

WINTER BREAK ENGLISH HOMEWORK CLASS 10

QUE 1: Your grandfather is very upset about the rising prices and keeps thinking of his olden times when things were very cheap. You are convinced that inflation has made life difficult for common man. Write a letter in 100-120 words to the editor of a national daily describing the difficulties faced by poor families. (5 MARKS)

QUE 2: Write a letter to the editor of a national daily, expressing your opinion and views on the increased human dependence on technology. Right from a small child to an adult, or even an old man, everyone wants gadgets only-cell phone, I-pod, laptop, etc. This also has a negative effect on social relationships. Using your own ideas and the unit, 'Science', Write the letter in 100-120 words. (5 MARKS)

QUE 3: Kush read the following article in The Economic Times : An Urban Farm in an Urban Jungle

Can you create functional, green spaces in a crowded city like Mumbai ? 'Fresh and Local' is an initiative to transform underused spaces into productive, community areas through urban farming. It aims to inspire city residents to make the most use of the spaces that surround them to grow fruits, herbs and vegetables. Not only can urban farming improve the environment, but also the health of the city residents.

Kush decides to write a letter to the Editor of a National Daily to raise public awareness about using the space around them for productive community areas. Use your ideas and ideas from the unit 'Environment' to write the letter in about 120-150 words. (5 MARKS)

QUE 4 : You are Amit/ Amita. You happened to take part in a medical camp organized by Health Club of your school in a remote village near Delhi. You are surprised to find that most of the people there have no awareness of basic health and hygiene. As a concerned citizen you decide to take up their cause and organize camps to make the villagers aware of the importance of hygiene. Taking ideas from the given notes and the unit on 'Health and Medicine' along with your own ideas, write a letter to the editor of a newspaper, in about 120 words, expressing your concern and encouraging youngsters to take part in such campaigns. (5 MARKS)

QUE 5: You are Bhai Bajrang/Radha Joshi, Principal, Basant Public School, Nashik. Your school has just decided to plant trees along the boundary wall of your school, for which you need saplings. You also want to place a large number of potted plants in all the corridors to help make the school green and reduce pollution. Write a letter in 120 – 150 words to the proprietor of Masjid Nursery, Nashik, wholesale suppliers of all kinds of saplings and indoor/outdoor plants, placing an order for saplings of plants for the school. (5 MARKS)

QUE 6 :. Everyday you are late to school by fifteen minutes. Your school bus is stuck in a traffic jam near Chintpumi Temple crossing. Along with own ideas, write a letter to the editor of a newspaper highlighting this problem and suggesting some remedy for it (5 MARKS)

QUE 7 : You bought a refrigerator two months ago from Mohan Sales, Ashok Vihar, Bangalore. It has developed certain problems regarding its functioning. Cooling has stopped and it is making a lot of noise. Write a letter of complaint to the Manager asking him for immediate repair/replacement of the same. You are Sachin/Shashi, 61 Pratap Enclave, Bangalore. (100 – 125 words) (5 MARKS)

QUE 8 : You visited the Water Park in your city as part of school excursion. You noticed that the water was not clean and also had a stale smell which could result in many water borne diseases. Taking ideas from the unit, Health and your own ideas, write a letter in about 120 words to the editor of a local newspaper about your experience on visiting the place and how the polluted water would affect the visitors. Include the precautions that should be taken in the Water Park. You are Neeta/Nitin. (5 MARKS)

Class-X

Subject----- Social science

1. What are the main function of political parties ?
- 2 . What are the main challenge of political parties ? describe it .
3. How the first world war helped in the growth of the National movement in India
4. Explain what is meant by the 1848 revolution of the liberals what were the political social and economic ideas supported by the liberals ?
5. Why are the means of transportation and communication call the lifelines of a nation and its economy ?
- 6.How do industries pollute the environment? Discuss the steps to be taken to minimise environmental degradation by industry?
7. What is federalism ? what makes India a federal country ?
8. State one prudential reason and one moral reason for power sharing with an example from the Indian context ?
9. What is the basic idea behind the the SHG for the poor explain in your own words ?
10. Why do we need to expand formal sources of credit in India ?
11. Project : -- Important historical and heritage sites in Mizoram ?

HOLIDAY HOMEWORK

प्रश्न 1: विद्यालय के प्रधानाचार्य को पुस्तकालय में भारतीय संस्कृति से संबंधित पुस्तकें उपलब्ध करने के लिए पत्र लिखिए ।

प्रश्न 2: अपने क्षेत्र में बढ़ते हुए अपराधों की रोकथाम हेतु थाना अध्यक्ष को पत्र लिखिए।

प्रश्न 3: किसी कोचिंग संस्थान द्वारा मेडिकल की तैयारी करने से संबंधित 2550 शब्दों में विज्ञापन लिखिए।

प्रश्न 4: रस किसे कहते हैं?

प्रश्न 5: निम्न काव्य पंक्तियों में कौन -सा रस निहित है

"उस काल मारे क्रोध के तनु काँपनेउनका लगा मानो हवा के जोर से सोता हुआ सागर जगा "

प्रश्न 6: भयानक रस का स्थाई भाव क्या है?

प्रश्न 7: निम्न काव्य पंक्तियों में निहित स्थाई भाव एवं रस को बताइए।

जलचर थलचर नभचर नाना, कितने रूप दिखाया,

तेरी माया तू ही जाने, मुनि जन मन अकुलाया।

प्रश्न 8: वाद विवाद प्रतियोगिता में प्रथम आने पर अपने मित्र को बधाई पत्र लिखिए।

प्रश्न 9: कार्तिक मास से फाल्गुन मास तक बालगोबिन भगत की दिनचर्या क्या होती थी?

प्रश्न 10: हालदार साहब ने नेताजी की मूर्ति पर नए-नए चश्मे लगाने वाले "कैप्टन" के विषय में पहली बार क्या सोचा था?

प्रश्न 1: भरपेट शब्द में उपसर्ग एवं मूल शब्द अलग कीजिए

प्रश्न 2: 'पर' उपसर्ग लगाकर दो शब्द लिखिए

प्रश्न 3: स्वामिनी जी शब्द में से प्रत्यय और मूल शब्द अलग कीजिए

प्रश्न 4: तद्धित प्रत्यय को परिभाषित कीजिए

प्रश्न 5: निम्नलिखित प्रश्नों के निर्देशानुसार उत्तर दीजिए

(क) निम्नलिखित समस्त पद बनाकर समास का नाम लिखिए –

'तुलसी द्वारा कृत '

(ख) निम्नलिखित समस्त पदों का विग्रह कर समास का भेद बताइए-

दिन-रात , चौमासा

प्रश्न 6 निम्नलिखित प्रश्नों के निर्देशानुसार उत्तर दीजिए

(क) प्रेमचंद का एक चित्र मेरे सामने है।-

(अर्थ के आधार पर वाक्य के भेद बताइए)

(ख) तुम्हारा इनमें से क्या उद्देश्य है?

(अर्थ के आधार पर वाक्य के भेद बताइए)

(ग) सुभद्रा जी छात्रावास छोड़ कर चली गई-

(निषेध वाचक वाक्य में बदलिए)

(घ) विस्मयवाचक वाक्य को परिभाषित कीजिए।

प्रश्न 7: निम्नलिखित वाक्य पंक्तियों में प्रयुक्त अलंकार का नाम बताइए

(क) चमचम चपला सी चमक रही

(ख) ले चला साथ मैं तुझे कनक ज्यों भिक्षुक लेकर स्वर्ण झनक

(ग) रती रती शोभा सब रती के शरीर की

(घ) लो यह लतिका भी भर लाई

मधु मुकुल नवल रस गगरी

प्रश्न 8: निम्नलिखित प्रश्नों के निर्देशानुसार उत्तर दीजिए

(क) निम्न का विग्रह करके समास का नाम लिखिए पाठशाला, पंचानन

(ख) समास में कितने पद होते हैं

प्रश्न 9: पुस्तक विक्रेता से पुस्तकें मांगने के लिए पत्र लिखिए।

प्रश्न 10: क्रिकेट के क्षेत्र में भारतीय टीम के प्रदर्शन पर आधारित दो मित्रों के संवाद को लिखिए।

CYCLE TEST SUB: SCIENCE

MM:50

- Q1) define the term tissue? 1
- Q2) name the types of elements that make up the xylem tissue? 1
- Q3) what is acceleration due to gravity? 1
- Q4) name the regions in which parenchyma tissue is present? 1
- Q5) write the chemical formulae of the following: 2
- a) Magnesium chloride
 - b) Calcium oxide
- Q6) calculate the molar masses of the following: 2
- a) Ethyne, C_2H_2
 - b) Hydrochloric acid, HCl
- Q7) what is the mass of- 2
- a) 1 mole of nitrogen atoms?
 - b) 4 moles of aluminium atoms (atomic mass of aluminium= 27)?
- Q8) convert into mole. 2
- a) 12g of oxygen gas.
 - b) 20g of water
- Q9) what are polyatomic ions? Give examples 2
- Q10) write down the names of compounds represented by the following formulae: 2
- a) $Al_2(SO_4)_3$
 - b) $CaCl_2$
- Q11) state the universal law of gravitation? 2
- Q12) write the difference between mass and weight? 2
- Q13) why does an object float or sink when placed on the surface of water? 2
- Q14) differentiate between parenchyma, collenchymas and sclerenchyma on the basis of their cell wall. 3
- Q15) diagrammatically show the difference between the three types of muscle fibres? 3
- Q16) draw a labeled diagram of a neuron? 3
- Q17) calculate the number of molecules of sulphur (S_8) present in 16g of solid sulphur? 3
- Q18) state Archimedes principle? Write its application? 3
- Q19) write the laws of chemical combination? 3
- Q20) name the following: 5
- a) Tissue that forms the inner lining of our mouth.
 - b) Tissue that connects muscle to bones in humans
 - c) Tissue that transports food in plants
 - d) Tissue that stores fat in our body
 - e) Tissue present in the brain.
- Q21) draw a diagrammatic labeled sketch of stem tip to show the location of

- ii) Butter from curd
- iii) Kerosene oil from water
- iv) Fine mud particles suspended in water
- v) Kerosene and petrol
- vi) Drugs from blood

Q18)

- a) What is the physical nature of water at 25°C and 100°C .
- b) Convert 298K to $^{\circ}\text{C}$.
- c) Sponge is a solid, yet we are able to compress it. Why?

Q19)

- a) Show that walking of a man is an example of Newton's third law of motion?
- b) Why the fruits fall down from the branches of the trees when wind blows?
- c) Why do fielders lower their hands while catching a fast moving ball?
- d) Define one newton of force?
- e) Find the momentum of the ball of mass 500g moving at 3m/s ?

Q20) diagrammatically show the difference between the three types of muscle fibres. Also write three differences between them in connection with their structure, location and function respectively?

Q8) differentiate between broilers and layers?

Q9) what is evaporation? Explain in brief four factors which affect evaporation?

Q10) compare true solution, suspension and colloid on the basis of tyndall effect, size of particles and stability?

Q11) mathematically, derive the relation to show that during collision of two balls, total momentum of the system remains conserved?

Q12)

- a) State universal law of gravitation?
- b) What happens to the gravitational force between two objects when distance between them is doubled?
- c) Why is G called universal constant?

Q13) state newton's second law of motion. An object of mass 20Kg is accelerated uniformly from a velocity of 36Km/h to 54 Km/h in 25 seconds. Calculate the magnitude of force exerted on the object.

Q14)

- a) calculate the % concentration of a solution which contains 2.5g of urea dissolved in 50g of water.
- b) Define homogenous mixture?

Q15) identify the type of tissue in the following:

Skin, bark of tree, blood, kidney tubule, vascular bundle, bone.

Q16) differentiate between prokaryote and eukaryote.

Q17) name the technique to separate

- i) Ammonium chloride from salt

Q1) why evaporation is called a surface phenomenon?

Q2) state Newton's first law of motion?

Q3)

- a) What do you mean by free fall?
- b) What do you mean by acceleration due to gravity?

Q4) two balls of different masses are thrown vertically upwards with same velocity. Which one of them will rise to the greater height?

Q5)

- a) Name the force that keeps the object moving in a circular path with constant speed.
- b) What would happen if this force is absent?

Q6) with the help of a flow diagram, show the process of obtaining different gases from air. If the boiling point of oxygen, argon and nitrogen are -183°C , -186°C and -196°C , which gas gets liquefied as the air is cooled?

Q7)

- a) Name the cell organelle involved in the formation of lysosomes?
- b) Write decreasing order of interparticle spaces present in three forms of matter
- c) Write any two characteristics of particles of matter.

SUBJECT: MATHS

WINTER BREAK HOLIDAY HOME WORK

1. The decimal representation of a rational number is (a) Always terminating (b) either terminating or repeating (c) Either terminating or nonrepeating (d) neither terminating . nor repeating
2. Which of the following is a rational number? (a) 5 (b) 0.101001000..... (c)
3. In which quadrant does the point (7,-4) lie? π (d) 0.3535... (a) IV (b) II (c) III (d) None of these
4. The point at which the coordinate axes meet is called the (a) Abscissa (b) ordinate (c) origin (d) quadrant
5. The perpendicular distance of the Point A(3,4) from the y axis is (a) 3 (b) 4 (c) 5 (d) 7
6. An angle is one fifth of Its supplement, the measure of the angle is (a) 150 (b) 300 (c) 750 (d) 1500
7. In triangle ABC, if $\angle C > \angle B$ then (a) $BC > AC$ (b) $AB > AC$ (c) $AB < AC$ (d) $BC < AC$
8. If $\triangle ABC \cong \triangle PQR$, then which of the following is not true? (a) $BC=PQ$ (b) $AC=PR$ (c) $BC=QR$ (d) $AB=PQ$
9. A cuboid is 12cm long, 9cm broad and 8cm high. Its total surface area is (a) 864cm² (b) 552cm² (c) 432cm² (d) 276cm²
- 10 $(3)^0 = ?$ (a) 1 (b) 0 (c) -1 (d) none of these
11. A number is called a.....,if it cannot be written in the form $\frac{p}{q}$, where p and q are Integers and $q \neq 0$.
12. Any equation which can be put in the form $ax+by+c=0$, where a, b and c are real numbers, and a and b are not both zero, is called.....
13. The coordinate axes divide the plane into four parts is called.....
14. The distance of a point from the y-axis is called it's.....and the distance of the point from the x-axis is called it's.....
15. The volume of the right circular cone with radius 6cm and height 7cm is cm³ .
16. Factorise: $x^2 + 3\sqrt{3}x + 6$
- 17 Simplify: Solve for x, $4 - 2x = 1 - 3x$
18. Find the value of k, if $x=2, y=1$ is a solution of the equation $.. 2x+3y=5$
19. How many circles can pass through three non-collinear points?
20. Find the area of an equilateral triangle with each side 20cm.
- 21 Find the all the angles of a triangle which are in the ratio 3:5
22. Find the remainder when $p(x)=x^3+x^2+x+1$ is divided by $x-1$.
24. Without actually calculating the cubes, find the value of $25^3 - 75^3 + 50^3$

25. Find any four solutions of the equation $x+2y=6$.

26. The angles of a quadrilateral measure 110°, 82° and 68°. Find the measure of the fourth angle.

HOMEWORK FOR WINTER BREAK

SUBJECT – ENGLISH

CLASS – VIII

1. Text based questions

a. Who was the incharge of ‘All Deserts’? What did the Djinn plan to do with the camel?

b. Why spring did not enter the Giant’s garden? Why did the children say ‘How happy we were there’?

- c. Why was Hafeez punished by his teachers?
- d. What did the king like and dislike about parrots? What did Ranji do when he returned home after the duel with Suraj?
- e. What did the narrator mean by 'for a child of such statuses' in the story "Jalebis"?
- f. Write down the inner meaning of the poem "The last bargain".
- g. Why was Penny feeling proud? Who received the phone at Stephen Hawking's house and what were the conversations?
- h. Who was Paresh Chandra? And what he suggested for Bepin?
- i. Who is more responsible for exploitation during British rule – Indians or Britishers?
- j. What is the name of the mystery cat?

Why is it the bafflement of Scotland Yard?

2. Read the passages below and answer the questions that follow

a. Read the following passage and answer the questions given below:

The worst days of any summer are the rainy ones. We spend all year looking forward to nice weather and long, hot days. All of winter, with its dreary gray days and bitter cold, we dream of those endless days at the beach, laying on the sand and soaking in the bright and burning sun. And then, summer comes, and it rains. As a child, I would wake up to rainy summer days and come close to crying. It wasn't fair. We suffered through months of school and miserable weather for those scant ten weeks of freedom and balmy weather. Any day that I could not spend at the beach or playing ball with my friends seemed like a punishment for something I didn't even do. On those rainy summer days, I had nothing fun to do and could only sit inside, staring out at the rain like a Dickensian orphan. I was an only child, so there was no one else to play with. My father worked from home, so I was not truly alone, but he could not actively play with me since he was technically at work. It was those days that I would resign myself to whatever was on television or any books that I could find lying around. I'd crawl through the day and pray each night that the rain would not be there the next day. As an adult, though, my opinion of summer rain has changed. When you have to work every day, summer is not as eagerly anticipated. Mostly, the days run together, bleeding into each other so that they no longer seem like separate entities and instead feel like continuations of the same long day. Everything seems monotonous and dull, and an ennui or listlessness kicks in. Such a mindset makes you cheer for anything new or different. I spend the winter dreaming of summer and the summer dreaming of winter. When summer comes, I complain about how hot it is. And then I look forward to the rain, because the rain brings

with it a cold front, which offers a reprieve—admittedly one that is all too short—from the torture of 100° and humid days. Rainy days are still the worst days of the summer, but summer rain today means positively beautiful—and considerably cooler—weather tomorrow.

1) The passage makes use of language that is a. metaphorical b. rhetorical c. formal d. ambiguous

2) According to the passage, summer is different for adults because a. rain brings with it cold temperatures for the following days b. the weather is much warmer than it is for children c. they do not get a long time off from work for the season d. they better know how to occupy their downtime

3) According to the passage, which of the following is a true statement about the narrator as a child? a. He or she was often bored on summer days. b. He or she preferred cooler weather. c. He or she liked staying indoors. d. He or she had no siblings.

4) Compared to how he or she was as a child, the narrator as an adult is a. more realistic b. less excitable c. more idealistic d. less calm

5) As used in the final paragraph, the word reprieve most nearly means a. a permanent conclusion b. a short continuation c. a higher level of pain d. a temporary break

b. One of the greatest mysteries of bird life is migration or travelling. Every year, during autumn and early winter, birds travel from their breeding places in the northern regions of Asia, Europe and America to the warmer southern lands. They make the return journey again during spring and early summer. They are very punctual too, unless they are delayed by bad weather.

The brave little voyagers face many dangers and hardships while travelling long distances over hills, forests, plains and over large stretches of water. Sometimes sudden storms arise and drive them far off their course. Often they are blown right out to sea and they drown in the wild waves. Then at night bright lights attract and confuse the birds.

Migrating birds do not fly at their fastest. The migration speed is usually from 48 – 64 kmph and rarely exceeds 80 kmph. They do not generally fly very high; they fly at under 900 meters, but some travellers have been found at greater heights. Some birds make the long journey in easy

stages, stopping to rest on the way. Others fly great distances without pausing to rest and feed. Some fly by day, some both by day and by night, but most of them speed on their way through darkness after the sun has set. Birds usually travel in flocks. Usually the male birds go first to their breeding grounds, and the female birds follow them in a few days.

Birds migrate in spite of the heavy loss of life on the way, primarily to escape the bitter cold and limited food supply. In the case of water birds, the food supply disappears altogether when the water freezes, and fish and other seafood are difficult to obtain. Indeed the migration of birds is a fascinating study.

Q.2.1. Answer the following questions in a word or two :-

1. Migrating birds usually travel in _____ .
2. Every year birds migrate from northern regions of Asia, Europe and America to the warmer southern lands during _____ .
3. The migrating birds generally fly at the heights under _____ .
4. Migrating birds unless they are delayed by bad weather are very _____ .
5. Migrating birds make their return journey during _____ .

Q.2.2. On the basis of your reading the passage, answer the following questions :-

- Q.1. Migrating birds face two main dangers and hardships. What are they?
- Q.2. Can you identify the two main reasons why birds migrate?
- Q.3. Do all birds travel non-stop when they make long journeys? What do some birds do? Mention any two methods.

c. Plaque is the accumulation of fat, cholesterol and other substances in arteries. As the plaque continues to build up in the artery, blood flow to the heart muscles gets reduced thus reducing the supply of oxygen and nutrients to the heart. As a result, when a major artery supplying blood to the heart muscle gets blocked completely, it results in a heart attack. Heart attack causes irreparable damage to the affected portion of the heart and subsequently reduces the efficiency of the heart.

In today's fast moving world, people have little or practically no time for any structured exercise regime. In addition to this, highly sophisticated gadgets that perform almost all the tasks with ease and little expenditure of energy are replacing physical activity earlier required to perform daily tasks. Thus, increased mechanization has contributed largely towards a sedentary lifestyle, which is responsible for an increased prevalence of heart disease.

In today's highly competitive and stressful environment at work, people have forgotten the basic principles of 'healthy living' in an attempt to raise their standards of living. Stress, one of the major culprits, has taken a heavy toll on the younger generation that is more prone to heart disease than thought otherwise.

Simple lifestyle modifications can help you keep heart disease at bay. For instance, aerobic exercises tend to promote cardiovascular fitness as the heart muscles have to work harder in order to supply energy to the heart making it more efficient and better conditioned. Some examples of aerobic exercises are brisk walking, cycling, jogging, swimming, running and jumping rope.

Exercise or physical activity, one of the most neglected aspects of healthy lifestyle, offers myriad benefits to the health by lowering blood pressure, controlling weight, improving blood circulation throughout the body, increasing levels of high-density lipoproteins (the 'good' cholesterol) in the blood and lowering stress. In addition to benefiting the cardiovascular system, regular exercise may enhance a person's sense of well being, increase stamina, improve muscle tone and flexibility and enhance productivity. This also possibly leads to an increase in longevity. A moderate level of activity also delays the process of ageing.

Q.1.1. On the basis of your reading of the passage, answer the following questions as briefly as possible:-

Q.1. What are the consequences of a heart attack?

Q.2. Mention any four benefits of physical activity.

Q.3. How do the aerobic exercises help to keep your heart diseases at bay?

Q.1.2. Complete the sentences by writing the appropriate word/words against the correct blank number :-

(a) The 'good' cholesterol in the blood is _____.

(b) _____ has contributed largely towards a sedentary lifestyle.

(c) _____ is one of the major culprits of heart disease in younger generation.

(d) An example of aerobic exercise is _____.

(e) _____ enhances productivity.

(f) Find the word from the passage in (Para 2) which means 'highly developed and complex' - _____.

c. Grammar

a. Identify the parts of speech of the underlined words.

1) You should practise for the competition as practice makes a man perfect.

2) Are you doing anything tomorrow evening?

Fill in the blanks with suitable adverbs.

1) I found the keys _____. That is why I am worried. (place)

2) She is _____ late. (frequency)

Underline the pronouns and state their kinds.

1) She is the girl who acted as Seeta.

2) All were listening to the speech of Mr. Modi attentively.

Change the sentences into indirect speech.

1) The old man said to her, "Obey your elders."

2) The teacher said, "What are you writing?"

3) Rakesh said, " Will you accompany me?"

4) He said, "Ouch! you are standing on my toe."

4. Writing

a. Meenu/Madhu of 14, St. Ford Town, Mumbai is not happy with the sanitary conditions of his/her locality. He/She decides to write a letter to the local Sanitary Inspector of the town to look into the sorry state of affairs. Using the hints given below, write a formal letter in about 150 words.

Hints :

No sweepers – heaps of garbage – drains blocked – people careless – no use of dustbins – suggested supply of big polythene litter bags – water logging – breeding of mosquitoes – serious health problems - regular visits of the authorities – meetings of the residents for awareness

b. You are Nikil/Nishi, the Sports Secretary of Kendriya Vidyalaya Ara, draft a notice (using not more than 50 words) to be put up on the school notice-board inviting the students to witness the final match of Inter-class cricket which will be played between Class VII and VIII. Give all necessary details. Put the notice in a box

c. You are the Cultural Secretary of the Middle School Activity Club of your school. Draft a notice (using not more than 50 words) for the School Notice Board informing the students about the Inter School Music Contest to be held in your school. Give details of the new programme. Put the notice in a box.

d. A famous celebrity recently moved in as your next-door neighbour. Write a letter to your friend, telling him/her about your new neighbour

Social Science

|--|-------|
| Q1) Define respiration?
mark | 1 |
| Q2) What makes the blood look red?
mark | 1 |
| Q3) Name the respiratory organs in
mark | 2 |
| a) Insect | |
| b) Earthworm | |
| c) Fish | |
| d) Humans | |
| Q4) Differentiate between aerobic and anaerobic respiration?
mark | 2mark |
| Q5) What are the components of blood?
mark | 2 |
| Q6) What are stomata? Give two functions of stomata?
mark | 3 |
| Q7) Why is transport of materials necessary in a plant or in an animal?
Explain

mark | 3 |
| Q8) Draw human respiratory system and label
mark | 3 |
| a) Diaphragm | |
| b) Lungs | |

- a) switch in 'ON' position
- b) battery
- c) wire
- d) electric bulb

Q16) Explain the formation of thunderstorm?

q17) explain the construction and working of an electric bell with the help of well labelled diagram.

Q18) Explain the various steps involved in the processing of wool. name any two breeds of sheep?

Q19) Give one term for the following:

- i) flower which contain both stamens and pistil.
- ii) the rhythmic contraction and relaxation of heart.
- iii) a pigment found in RBCs that carries oxygen to different parts of the body.
- iv) the transfer of pollen from the anther to the stigma of a flower
- v) the process of removal of waste products from the body of living organisms.

Q20) Sketch the reproductive parts of a flower?

Q21) Draw Human Excretory System and label any three parts?

Q22) Name the different types of cells found in blood. give one function of each.

Q23) Which are the best soil types for growing plants why.

Q6) how do wind help in the dispersal of seeds and fruits?

Q7)

a) what do you mean by motion?

b) differentiate between uniform and non uniform motion.

c) draw the distance time graph:

i) uniform motion

ii) non uniform motion

iii) for stationary object

Q8) Explain the circulation of blood in the human body with the help of a schematic diagram?

Q9) What is asexual reproduction in plants? explain the different methods of asexual reproduction in plants.

Q10)

A) What is Electromagnet?

B) what happens to the magnetism of an electromagnet when current passing through its coil stops?

C) what are advantage of electromagnet over permanent magnets?

D) give any two uses of electromagnets?

Q11) Why moist baking soda is used when an ant bites?

Q12) Give two differences between acids and bases?

Q13) How is silk fibre produced by silk moth?

Q14) Describe two benefits of neutralisation in everyday life?

Q15) draw symbols for the following electric component:

(b) How did travelers use magnet to find direction in the olden days?

Q10. How are camels adapted to survive in a desert?

Q11. What are the two main techniques of rain water harvesting?

Q12. (a) Define reversible and irreversible changes?

(b) With the help of three examples. Explain the diff. between changes which can or cannot be reversed.

Q13. What are conductor? Give two examples of conductor.

Q14. Write one word for the following –

- 1) The organism who depends on other for food.
- 2) The animal product that services as source of food for humans.
- 3) The shiny appearance of material.
- 4) The liquid which mix with each other.

Q15. Name them-

- 1) The animal that eat only dead animals.
- 2) The animal who eat meat and plants both.
- 3) Placing similar things together.
- 4) The materials that float on water.

Q16. Define the following terms-

- 1) Balance diet.
- 2) Herbivore, carnivore and omnivore.
- 3) Weaving, knitting and ginning.
- 4) Transparent, translucent & opaque.

CLASS 6 :

HOLIDAY HOME WORK OF CLASS -

Q1) What is the importance of the water cycle in nature ?

Q2) What advantage do the highlighted features give to a fish ?

Q3) Why does water disappear from wet surface after sometime

Q4). What are non – magnetic materials ? give any two example .

Q5) . (a) what are the problems faced by people due to drought?

(b) What is the basic idea behind rain water harvesting?

Q6). Living beings respond to stimuli. Cite any two example each of animals and plants to illustrate the same.

Q7). Explain the reasons for separating mixture into their components with the help of examples.

Q8. Classify the following changes as irreversible and reversible with explanation.

(a) inflating a balloon and bursting it.

(b) Rolling a roti and baking a roti.

Q9. (a) Identify the type of magnets

c) Trachea

Q9) Describe the function of the heart? 3
mark

Q10) Describe the various methods of asexual reproduction. Give examples.

CLASS 7TH

HOMEWORK FOR WINTER BREAK

SUBJECT – ENGLISH

1. Text based questions

- a. Why did the king refuse to give reward to anyone? What were the replies the king received for his first question?
- b. Why does the poet say the squirrel ‘wore a question mark for tail’? How would you describe its tail?
- c. Why do rebel always contradict the others? How differently do rebels behave during the lesson?
- d. What was beggar’s expectation from the ladies of the household?
- e. Why did the king want no more talk about the hilsa-fish? What three things did Gopal do before he went to buy his hilsa fish?
- f. Why did the author choose to visit the shoemakers?
- g. What did Maya think about the visitor of Mr. Nath?
- h. How has the of invention of Vita-Wonk progressed?
- i. What are the games or human activities which use trees, or in which trees also ‘participate’?
- j. Why do you think that the spider web hanging on the door was no longer there?

- k. Why did Golu go to the river? What did the crocodile do to show that it was a real crocodile?
- l. How do Mr Purcell greet the visitors? Why did he buy a young goat in the story “Chandni”?
- m. Why Soapy was happy to see the cop?
2. Read the following passages and answer the questions that follow
- a. Benevolence, however, does not go unrewarded. If you are kind to someone, it will bring you a sense of joy and blissfulness. Simple benevolence shown in simple acts can turn a dull and gloomy day into a special one. It is like the lively glowing rays of the morning sun that caress our face and make us feel happy and cheerful. Besides, doctors believe that benevolence, along with feelings of love and tenderness, stimulates some nerves in our brain which produces calmness and relaxes the heart. Benevolent people do not get disturbed easily. Is it not a great reward for being kind?
- i) What is the need to be kind?
- ii) What is the medical belief behind benevolence?
- iii) Write the synonym of the phrase ‘the act of being generous’.
- iv) How simple benevolence can turn a dull day into a special one?
- v) What reward is the author talking about?

B. Tick the correct verbs to complete the sentences.

- i) Christopher Columbus _____ America.
(discovered/ invented)
- ii) Alexander Graham Bell _____ the telephone.
(discovered/invented)
- iii) I _____ to go to school in winter. (deny/refuse)
- iv) I _____ having said that I have seen a UFO. (deny/refuse)
- v) I _____ that I made a few mistakes. (admit/confessed)
- vi) I _____ television every day. (see/watch)

b. Fleas are perfectly designed by nature to feast on anything containing blood. Like a shark in the water or a wolf in the woods, fleas are ideally equipped to do what they do, making them very difficult to defeat.

The bodies of these tiny parasites are extremely hardy and well-suited for their job.

A flea has a very hard exoskeleton, which means the body is covered by a tough, tile-like plate called a sclerite. Because of these plates, fleas are almost impossible to squish. The exoskeletons of fleas are also waterproof and shock resistant, and therefore fleas are highly resistant to the sprays and chemicals used to kill them.

Little spines are attached to this plate. The spines lie flat against the flea’s thin, narrow body as the flea

scurries through an animal's fur in search of food. However, if anything (like fingers or a self-grooming pet) tries to pull a flea off through the hair coat, these spines will extend and stick to the fur like Velcro.

Fleas are some of the best jumpers in the natural world. A flea can jump seven inches, or 150 times its own length, either vertically or horizontally. An equivalent jump for a person would be 555 feet, the height of the Washington Monument. Fleas can jump 30,000 times in a row without stopping, and they are able to accelerate through the air at an incredibly high rate—a rate which is over ten times what humans can withstand in an airplane.

Fleas have very long rear legs with huge thigh muscles and multiple joints. When they get ready to jump, they fold their long legs up and crouch like a runner on a starting block. Several of their joints contain a protein called resilin, which helps catapult fleas into the air as they jump, similar to the way a rubber band provides momentum to a slingshot. Outward facing claws on the bottom of their legs grip anything they touch when they land.

The adult female flea mates after her first blood meal and begins producing eggs in just 1 to 2 days. One flea can lay up to 50 eggs in one day and over 2,000 in her lifetime. Flea eggs can be seen with the naked eye, but they are about the size of a grain of salt. Shortly after being laid, the eggs begin to transform into cocoons. In the cocoon state, fleas are fully developed adults, and will hatch immediately if conditions are favorable. Fleas can detect warmth, movement, and carbon dioxide in exhaled breath, and these three factors stimulate them to emerge as new adults. If the flea does not detect appropriate conditions, it can remain dormant in the cocoon state for extended periods. Under ideal conditions, the entire life cycle may only take 3 weeks, so in no time at all, pets and homes can become infested.

Because of these characteristics, fleas are intimidating opponents. The best way to control fleas, therefore, is to take steps to prevent an infestation from ever occurring.

Questions:

Q1) What is sclerite? How is it useful for the fleas?

Q2) Describe how fleas are the best jumpers in the natural world.

Q3) What are the favourable factors required by a cocoon of flea to transform into a developed adult flea?

Q4) Choose the correct option:

A) The primary purpose of the passage is to

- a. educate the reader about the physical characteristics of fleas
- b. compare fleas to other members of the animal kingdom
- c. relate the problems that can result from a flea infestation
- d. explain why a flea infestation is hard to get rid of

B) The author's tone in the passage is best described as

- a. concerned
- b. passionate
- c. informative
- d. opinionated

C) According to the passage, fleas are resistant to sprays and chemicals because they

- a. have waterproof sclerites
- b. are excellent jumpers
- c. reproduce very rapidly
- d. can stick to fur like Velcro

D) According to the passage, which of the following statements is true?

- i. Fleas extend their little spines if threatened.
- ii. Fleas have the ability to jump higher than humans.
- iii. Humans can jump higher if they consume foods containing resilin.
- iv. The resilin found in fleas helps catapult fleas into the air as they jump

- a) Only (i) is true
- b) All the above statements are true
- c) Both (i) and (ii) are true
- d) None of the above statements is true

3. Grammar

a. In the given passage, there is an error in each line. Identify and correct it:

An elephant do not work mechanically _____
likes many other animals. He never stops _____
learning because he can always thinking. _____
An elephant never forget like humans. _____

b. Add the suffixes '-tion' to the verb in the brackets & complete the sentences.

- 1. What is the _____ (locate) of the school?
- 2. I want to see the _____ (present) tomorrow.
- 3. Papa will come for the prize _____ (distribute) ceremony.
- 4. _____ (educate) of the girl child is a must!
- 5. I won the _____ (compete)!
- 6. The mobile phone is a means of _____ (communicate).

4. writing

- a. Write a letter to the editor of a newspaper highlighting the problem of bad condition of a street lights and pot holes in your area. You can write about the maintenance steps or measures required so as to avoid any mishappening.
- b. You are Ram/ Reena ,a student of class vii of Kendriya Vidyalaya Ara.As you had lost your geometry box yesterday in the playground of the school, you need to put up a notice in the noticeboard of the school now. Write down a notice on it.
- c. Write a paragraph in about 130 words about “the ways in which we can conserve our forests”.

- j. What message did the old clocks impart? What does the word 'slack' means?
- k.What change 'a new breeze' brings to the kite?

2.READ THE FOLOWING PASSAGES AND ANSWER THE QUESTIONS THAT FOLLOW

a.

If you were a meat-eating jungle animal

looking for a tasty snack, there is one brightlycolored creature you'd want to avoid eating at all costs – the poison dart frog!

Most poison dart frog species live in Central and South America. They come in a variety of bright colors, including yellow, gold, blue, red, green, copper, and black. Their colors warn potential predators to watch out! No, these frogs don't bite.

They don't even have teeth. However, the poison in their skin tastes bad, and can even kill.

Fortunately, only a few species of poison dart frogs can kill humans. One of these deadly species, the golden poison dart frog from Colombia, is among the world's most toxic animals. The poison of just one of these creatures could kill as many as ten people!

Where do poison dart frogs get their name? Some tribes of people have used the poison from these frogs on the tips of their blowgun darts when hunting.

Unlike most frogs, poison dart frogs are active during the day. Adult poison dart frogs do not live in water. Instead, they live in the leaf litter and rocks of their rain forest habitat. A few species also live high in the trees.

Like all frogs, poison dart frogs start out as tadpoles and spend their early stages of development in the water, where they undergo metamorphosis. Depending on the species of poison dart frog, one or both parents carry the tadpoles to small ponds, pools of water that collect in the centers of flowers, tree cavities, and even discarded cans and tires!

Adult poison dart frogs have long sticky tongues.

Poisonous Pets?

Some people have poison dart frogs as pets. This is possible

because frogs bred in captivity don't produce poison. Frogs caught in the wild also lose their poisons after a time in captivity. Because of this, scientists think the frogs get their poison from the food they eat in the rain forest.

Their tongues zip out quickly to catch the food they eat: spiders and small insects like flies, termites, ants, mites, centipedes, and small beetles.

Medical researchers are currently studying how the poison that is produced by dart frogs might be useful. In fact, some medical researchers think that the poison from poison dart frogs could actually be used to make medicine for people. In the future, it may be used to make painkillers and heart medicine.

Poison dart frogs are an important species in the ecosystem of the rain forest. Like many other rain forest animal populations, the poison dart frog population is disappearing because of habitat loss and pollution. We can hope that conservation efforts will help poison dart frogs to thrive again in their natural environment.

1. According to the article, which feature of a poison dart frog alerts predators to avoid eating it for food?

2. Based on the information in the reading passage, infer (draw a conclusion) which type

of climate best suits poison dart frogs.

- a. warm and dry b. warm and moist
- c. cold and dry d. cold and moist

3. How are poison dart frogs in captivity different from poison dart frogs in the wild?

4. According to the article, what role do poison dart frog parents play in the development of their offspring?

- a. Adult poison dart frogs stay with their tadpoles until they reach adulthood.
- b. Adult poison dart frogs catch insects for food and feed them to their offspring.
- c. Adult poison dart frogs carry their tadpoles to still waters to complete their growth.
- d. Adult poison dart frogs do not play any role in the development of their offspring.

5. If you are hiking through the South American jungle, where might you find a poison dart frog?

Circle all the correct answers.

- a. high in the trees b. in the river
- c. deep in a cave d. among leaf litter and rock

The scrambled words below are vocabulary words from the article. Unscramble each word and write it on the line. Please be sure each word is spelled correctly.

1. _____ p e t l o v e m e n d

hint: the process of growth

2. _____ t y t c a v i p i

hint: the condition of being confined

3. _____ s m e o s t e y c

hint: a community of living organisms interacting with their environment

4. _____ c i x t o

hint: deadly; poisonous

5. _____ t a o m h i s p e r o m s

hint: transformation

6. _____ i t e r l t

hint: debris on a forest floor made up of plant material

7. _____ s c a i v i t e

hint: empty or hollowed-out places inside solid objects

8. _____ t h a t i b a

hint: the environment in which an animal or plant lives

9. _____ t o p l a p o u i n

hint: all the animals of one species in the same area

10. _____ r e t i b s

hint: groups of native people who live together

b. Grandma stared out her bedroom window. “No flowers, no trees - just concrete and cars. Time to go home.” Her cane rapped the floor as she turned to face Madison and Dad. “This is your home now,” Dad said.

“And you’ve got lots of squished flowers.” Madison pointed to the artwork Grandma had brought from her old home. Frames and frames of squished flowers sat upright on the floor against the wall.

“Pressed flowers, Madison.”

Grandma pinched a flower off her windowsill violet. She showed Madison how to flatten the blossom in an encyclopedia. “So the flower’s beauty stays forever.”

Later that week, as Madison skipped home from school, she was about to hop over a sidewalk crack and avoid years of bad luck, when she saw a wildflower poking out.

She uprooted the flower and pressed it at home. A week later, the petals were flat,

brittle, and delicate like the butterfly wing she had once found on a school trip at the botanical gardens. She gently lifted the pressed flower and glued it onto paper. She framed it with cardboard and presented it to Grandma.

“It’s lovely.” Grandma studied it.

“I was thinking…” Madison told Grandma about the botanical gardens. The next day, they took a train there.

Grandma smiled one minute, harrumphed the next. She stopped to inspect some ivywrapped trees. “They remind me of the Queen of the Night,” she said. “I haven’t missed her show in fifty years – until now.”

Just then, the manager stopped to welcome them.

But Grandma proceeded to advise him on how to take better care of his gardens.

“We could really use your expertise,” he said, offering her a volunteer job.

“I’ll consider it,” Grandma said.

That evening, Grandma phoned her best friend. They talked about a lot of things, including maybe volunteering at the gardens.

“Will she visit us some time?” Madison asked after Grandma had hung up.

Grandma shook her head. “I don’t think so. The drive is too hard.”

“Then I’ll help you make new friends here.” Over the next few weeks, Madison invited her friends’ families over, and Dad even took Grandma to a gardening club.

“Do you like your new friends?” Madison asked Grandma at the end of the month.

“I like all of my friends,” Grandma replied. “Old and new.”

A few weeks later, Dad announced, “We’re going to Grandma’s old house. The realtor wants to meet with us.”

They drove past skyscrapers, then pastures. Finally, their car kicked up a cloud of gray dust as it wobbled and crunched down Grandma’s gravel driveway.

The realtor was inside, reviewing a list. “We have a buyer with a list of demands.”

Grandma stopped smiling. While Dad and the realtor talked, she drifted from room to room, her cane sinking into the carpet. Her fingers brushed a wall, a countertop, as she looked around and sighed.

The screen door creaked open, and Grandma wandered outside. Madison followed, tiny moths fluttering up out of the weeds.

Dad and the realtor were studying a vine-covered tree.

“The vine will have to go,” the realtor said, checking her list.

Grandma frowned. “The Queen of the Night? We can’t destroy it! One night a year, this cactus is covered with the most beautiful white, fragrant blossoms. They’re as big as honeydews. People come from miles to watch them bloom.”

Grandma shook her head. “My grandmother passed this treasure down. I wanted my son and granddaughter to have it, but there’s no room in the city.”

“Maybe there is room,” Madison said, a thought suddenly striking her. “At the botanical gardens! But how do we take this whole vine there?”

We don’t - we just need part of it.” Grandma snapped a piece of cactus off and wrapped it in her handkerchief.

The next day, they visited the manager at the botanical gardens.

When he seemed unsure, Madison continued, “You could have a fundraiser and sell stem cuttings...”

A spark of excitement lit the manager’s eyes. “A fundraiser? That’s a great idea!”

So that afternoon, Grandma and Madison planted the Queen of the Night cutting in a special spot in the gardens.

Madison gave the dirt a final pat.

“Maybe we can press one of the flowers when it blooms. You know, so it stays forever.”

Grandma nodded. She stared down for a while. Finally, she brushed off her hands.

“Time to plant new roots,” she said and her cane clicked across the pavement as they headed home.

1. In the beginning of the story, how does Grandma feel about her new home in the city?

2. Based on what you read in the story, describe one of Grandma's interests.

3. Is it easy for Grandma to keep in touch with her old friends? Why or why not?

4. Why do Dad, Madison, and Grandma go back to Grandma's house in the country?

5. At the end of the story, Grandma says, "Time to plant new roots." What does she mean when she says this?

Fill in the missing letters to form a vocabulary word from the article. Then write the full word on the line. Be sure you spell each word correctly.

1. f _ _ a _ _ r _ _ n _ _ _ _ _ _ _ _ _ _

hint: having a sweet or pleasant smell

2. _ _ n c _ _ c l _ _ _ _ e d i _ _ _ _ _ _ _ _ _ _

hint: book that provides information on a variety of subjects

3. b _ i _ t l _

hint: subject to breaking or shattering easily

4. _ o t _ n _ c _ l g _ r _ e n _

hint: places where plants are cultivated for

public view and scientific study

5. _ u n _ r a _ s _

hint: an event held to raise money for a cause,

charity, or organization

6. e _ p _ _ t i _ e _

hint: expert knowledge

7. h _ n _ _ e r _ h i e _

hint: a small square of fabric that serves the same

purpose as a tissue

8. _ e a l _ o _

hint: real estate agent

c. Have you ever seen a rhinoceros at the zoo? A rhino is a large, strong animal, which is famous for its distinctive horns. There is also an insect with similar characteristics - it's very large, very strong, and even has horns! It's the rhinoceros beetle.

There are many species of rhinoceros beetles. The strongest is the Hercules rhinoceros beetle which can lift up to 850 times its own weight. That would be like you lifting 850 people your size! This makes the Hercules rhinoceros beetle the strongest animal on Earth! Relative to its size, it's even stronger than a bear, a lion, or an elephant.

The male rhinoceros beetle has two horns and looks a bit like a rhinoceros. One horn is on the top of its head. The other horn comes off the thorax (the area between the head

and the abdomen). Females have no horns.

The male beetles even have duels. They sometimes lock horns with each other. They will try to push each other and even flip each other over. When they're not duelling, rhinoceros beetles use their horns to dig through leaf litter in search of food.

Many male rhinoceros beetles are over 2½ inches long, however Hercules rhinoceros beetles can be over 6 inches long!

The rhinoceros beetle's size and fearsome appearance help protect it from predators. It will also hiss and squeak if it feels threatened. These squeaks aren't made by its mouth. Instead, they are made by rubbing wings against abdomen.

During the day, this big beetle hides under logs and other vegetation. At night, it comes out to look for food. Its favorite foods include plant sap, nectar, fruit, and decaying plants.

Rhinoceros beetles live on every continent except Antarctica. Most of the largest species, like the Hercules beetle and the elephant beetle, live in warm, tropical regions. Some smaller species, such as the unicorn beetle and Grant's beetle, live in the United States.

Like other insects rhinoceros beetles have wings. And yes, despite their large size, they can fly quite well.

Although this insect might look a little scary it really is harmless to humans. It doesn't sting or bite. Some people even keep them as pets.

About the Author

Guy Belleranti works as a docent at Reid Park Zoo in Tucson, Arizona. The information in this article comes from his experiences working with wild animals and teaching others.

1. List three ways mentioned in the article that rhinoceroses and rhinoceros beetles are alike.

- _____
- _____
- _____

2. What can you determine about the rhinoceros beetle in the picture to the right?

- a. It has eight legs.
- b. It can't fly.
- c. It is male.
- d. It is poisonous.

3. Of course, a lion, bear, or elephant could crush a rhinoceros beetle. However, the article says that the rhinoceros beetle is “the strongest animal on Earth.” How can this be?

4. What do rhinoceros beetles eat?

5. Are rhinoceros beetles herbivores, carnivores, or omnivores?

The scrambled words below are vocabulary words from the article. Unscramble each word and write it on the line.

Please be sure each word is spelled correctly.

1. _____ c o s e r i n o h r

hint: large mammal with horns

2. _____ o a r t x h

hint: middle part of an insect's body

3. _____ a r e f s e o m

hint: frightening

4. _____ a k u e s q

hint: A short, high-pitched sound

5. _____ i a v e e g o t t n

hint: plant life

6. _____ m l h e a s s r

hint: antonym for dangerous

7. _____ a r i c o p t l

hint: from a hot and humid place

3. Grammar

Do as direct:-

1. He is ready. (change into interrogative)

2. Are you going to a hill station? (change into assertive)

3. Stop making noise. (write the type of sentence)

4. His rude behavior annoyed me. (pick predicate)

5. _____ cooked the noodles. (write suitable subject)

6. It is extremely cold in January. (underline proper noun)

7. Disobey (change the verb into Abstract noun)

8. Men's (use possessive noun into sentence of your own)

9. Roof teeth (connect singular noun with its plural)

Tooth roofs

10. Please offer the cold drinks in the _____ glasses. (fill material noun)

11. Table, Indira Gandhi, Sunday, horse, Temple. (pick common noun)

12. Romi is an honest merchant. (underline quality adjective)

13. Reena ate two mangoes. (write the type of adjective)

CHAPTER-18 (A HOUSE LIKE THIS)

Question 1: Why are houses made on bamboo pillars where Bhupen lives?

Answer: Bhupen lives in Assam, it rains heavily therefore, the houses were made on strong bamboo pillars.

Question 2: What kind of roofs do these houses have? Why are they made like this?

Answer: These houses have slant roofs. They are made like this so that the water does not stay at the roof and create leaks.

Question 3: How does one enter these houses?

Answer:

One enters these houses by wooden ladders.

Question 4: At night the ladder is removed from these houses. Can you tell why?

Answer:

This is done in order to prevent any unwanted animal from entering the house.

Question 5: In which area is Chameli's house?

Answer:

Chameli's house is in a hilly area (Manali).

Question 6: What is the similarity in the roofs of Chameli's and Bhupen's houses?

Answer:

The similarity in the roofs of Chameli's and Bhupen's house is that they have slopes

Question 7: How do roofs help in their areas?

Answer: The slanting roof allow snow and rain to flow downwards.

Question 8: How do people go up in multi-storeyed buildings?

Answer:

People go up in multi-storeyed buildings through stairs or lifts.

Question 9: How is a houseboat different from other houses?

Answer:

Houseboats are different from other houses because houseboats don't stay at one place, they keep moving unlike other houses.

Question 10:

Would you like to live in such a house? Why?

Answer: Yes, we will enjoy both living and boating in such houses.

Question 11:

Look at the pictures and match.

Answer:

Question 12:

Put a tick on the names of things which your house is made of.

Answer:

Grass	Mud	Wood	Cement	Canvas	Iron
		✓	✓		✓
Plastic	Limestone	Bamboo	Bricks	Glass	Stone
	✓		✓	✓	✓

Question 13:

Look at the houses in your neighbourhood. What are they made of? Make a list.

Answer:

The houses in my neighbourhood are made up of cement, brick, stones, sand and iron .
